

Certificate of Analysis

Date MNFG: 2026.06.21
Lot: 26K0601
Property Name: BIALEX K

Batch: 20 Kits

Reference: GQ-K-100
Use: IN VITRO DIAGNOSTIC
Expiration Date: 2028-06-03 (YYYY-MM-DD)

Characteristics:
REAGENT AND STANDARD BETWEEN RANGE CHARACTERISTIC
Control Reference:

RANGE VALUES
CONTROL 1: 4.5
CONTROL 2 6.5
Units: mEq/L
St. Value: 4mEq/L

Result: LEVEL 1 4.00 / LEVEL 2 6.80 mEq/L

Note: Storage at 2 to 8°C may induce crystal formation. This process is reversible; for precipitate redissolution, allow the reagent to reach room temperature or use a water bath (25–32°C) until complete homogenization is achieved.

Conclusion: Release for sale

A handwritten signature in blue ink is written over a circular blue stamp. The stamp contains the text "BIALEX LAB" at the top, "QC" in the center, and "DATE" and "QUALITY ASSURANCE" at the bottom.
